## **SOLID WASTE DISPOSAL SERVICES**

### **2.1000 Purpose, Policy, and Scope**

(1) In order to protect the health, safety, and welfare of the people of the county and to provide a solid waste management program, it is declared to be the public policy in the county to regulate solid waste management to:

(a) Provide for a coordinated solid waste management program and administration with cities within the county and with other counties or cities under existing and future regional programs;

(b) Provide standards, regulations, and franchising to ensure the safe and sanitary accumulation, storage, collection, transportation, and disposal or resource recovery of solid wastes and ensure maintenance of solid waste collection, resource recovery, and disposal service;

(c) Encourage research, studies, surveys, and demonstration projects to develop a safe, sanitary, efficient, and economical solid waste management system;

(d) Provide for research, development, promotion of, and public education in technologically and economically feasible resource recovery, including, without limitation, recycling and reuse by and through the franchisees and other persons;

(e) Eliminate duplication of service or routes to conserve energy and material resources, reduce air pollution, noise pollution, truck traffic, and increase efficiency, thereby minimizing consumer cost for solid waste disposal and costs to the county in providing basic services;

(f) Encourage the use of the capabilities and expertise of private industry and encourage volunteer efforts in accomplishing the purposes of this title;

(g) Provide equitable classes of rates to classes of users of solid waste services that are just, fair, reasonable, and adequate to provide necessary services to the public, justify investment in solid waste management systems, and provide for equipment and systems modernization to meet environmental service requirements and current technology;

(h) Minimize the cost and burden of regulation, administration, and enforcement;

(i) Provide for public input in solid waste management; and

(j) Carry out local government responsibility and authority for solid waste management under ORS chapter 459 and carry out the mandate for waste reduction under 1979 Oregon Laws, chapter 773; and

(k) Provide financial security for the repayment of investments in:

(A) Collection and disposal equipment;

(B) A regional landfill provided by any franchisee under this title including, but not limited to, complying with minimum financial security requirements imposed by the Oregon Environmental Quality Commission, the state of Oregon, and the county in financing such a site; and

(C) Future collection, disposal, and resource recovery facilities.

(2) After public hearing held on November 24, 1982 and subsequent continued hearings to consider this title and upon the basis of evidence submitted therein, the Board finds that:

(a) This title is authorized by ORS 459.015, 459.055, 459.065, 468.220(6), 459.085, 646.740(6), 279.011 to 279.061, ORS chapter 203, and OAR 127-10-040, together with rules or regulations promulgated under the foregoing, and is in compliance with Goals No. 6 on Environment and No. 11 on Public Facilities adopted by the Land Conservation and Development Commission, the Lincoln County Comprehensive Plan, the Lincoln County Solid Waste

Management Plan, the Oregon Department of Environmental Quality, Solid Waste Management Plan, and the Lincoln County Waste Reduction Plan.

(b) To achieve the purposes and carry out the policy of this title; to carry out the mandate of ORS 459.015 for local government to provide for a solid waste management program; and to carry out the planning and waste reduction required of local government by ORS 459.055 and 468.220; it is necessary for Lincoln County, in cooperation with other affected governmental units, to:

(A) Set the levels of service necessary for, and required by, the public in the fields of solid waste collection; solid waste disposal; and the recycling or reuse of source separated wastes;

(B) Make the necessary long-term governmental commitment to assure the investment in service facilities, equipment, personnel, and financial capital; and to assure service to the public; and

(C) Evaluate the costs of the various services and how that cost is to be collected or assessed; and

(c) To carry out paragraphs (a) and (b) of this subsection, it is necessary to:

(A) Reasonably regulate competition through a comprehensive program of solid waste management;

(B) Assign exclusive responsibility to one or more persons for each specified and regulated solid waste management service and service territory and to issue a franchise to such person or persons;

(C) Review service rates to the extent specified to protect consumers and the public generally and to assure adequate public service;

(D) Select persons to provide service on the basis of their demonstrated ability, capability, expertise, and experience in providing the service together with their equipment, management facilities, personnel, and financial capability, and investment available to provide service;

(E) In appropriate cases, the Board may contract for public education in recycling and reuse and contract for the promotion of recycling and reuse;

(F) Recognize that the Congress, through the Resource Conservation and Recovery Act of 1976, the Oregon Legislature in ORS chapter 459, and the Oregon Environmental Quality Commission, Department of Environmental Quality, Land Conservation and Development Commission, and the Board and county planning commission have, by developing and implementing a regional disposal site program, created a disposal monopoly. Under the regional program and concept, only a few regional disposal sites will be permitted in all of Western Oregon to force waste concentrations to finance environmentally acceptable disposal sites and methods and enhance the opportunities for resource recovery. Thus, only two municipal waste disposal sites have been permitted for disposal in a service area encompassing one county and future legislative action may limit this to one disposal site and a limited number of transfer stations; and

(G) Assign service territories to assure that persons in geographically remote or otherwise non lucrative areas receive adequate solid waste collection and disposal services. [1983 o.199 §1]

Upon the basis of the application, evidence submitted, and results of any investigation, the administrator shall issue findings on the qualifications of the applicant and whether or not additional service, land, equipment, or facilities should be provided and what conditions of service should be imposed, including without limitation, whether the site should be opened to the public and under what conditions; whether or not certain types of wastes, solid wastes, or hazardous wastes should be excluded from the site or types of wastes which should be required to be accepted at the site, and shall make a finding as to whether or not the site is economically feasible, whether or not the site may be integrated with existing private or county-owned or operated sites; and, further, whether the site complies with all rules and regulations adopted pursuant to this title or ORS chapter 459. The Board may impose any conditions deemed necessary to carry out the purposes and policy of this title. Where reasonably required by the Board, a disposal site franchisee shall maintain books and records disclosing gross receipts at the disposal site, which books and records shall be available at reasonable times and places for audit by authorized personnel of the county. [1983 o.199 §1]

#### **2.1050 Length of Term**

The term of the disposal site franchise shall be provided for in the written franchise agreement between franchisee and county referred to in LCC 2.1040(6). [1983 o.199 §1]

#### **2.1055 Renewal of a Disposal Site Franchise**

(1) The Board and the franchisee may, by mutual agreement, renew the franchise pursuant to this title.

(2) Renewal of a franchise shall be based upon application filed with the administrator. The application and procedure for review and renewal shall be the same provided in LCC 2.1040. #### **2.1060 Applications for Solid Waste Franchises**

(1) Application for a solid waste franchise shall be made on forms provided by the administrator. Said advertisement shall state that franchise applications will be received for a period of two weeks following the advertisement and will be opened at the next regular meeting of the Board following that period. The advertisement shall inform prospective franchisees of the application procedures and identify the service territory required to be served by the franchise being advertised. No application received after the expiration of the two-week period will be accepted.

(2) In the event a franchise is to be terminated for any reason, the administrator shall advertise for franchise applications to replace the franchise to be terminated. Said advertisement and subsequent franchise award shall be conducted pursuant to the provisions of subsection (1) above and shall be coordinated in such a manner as to prevent a lapse or interruption of service. In the event it is not possible to prevent a lapse or interruption of service through solicitation of

franchise applications, the Board may take appropriate measures pursuant to LCC 2.1085. Upon receipt of the franchise applications, the administrator shall review the applications and require such additional information as necessary to determine compliance with the provisions of this chapter, ORS chapter 459, and other applicable laws and regulations.

(3) The administrator shall, upon the basis of the application and evidence submitted, make recommendation to the Board as to the qualifications of the applicants and shall determine which applicants shall be awarded franchises and the service territory to be served by each franchisee. The recommendation shall include findings of fact supporting the recommendation, and a statement of the reasoning supporting the recommendation.

(4) Applications shall include:

(a) Proof that the applicant has sufficient collection vehicles, equipment, land, facilities, and personnel;

(b) Proof the applicant has in force public liability insurance in an amount of not less than \$100,000 per person and \$300,000 per accident for bodily injury, and not less than \$25,000 for property damage, which shall be evidenced by a certificate of insurance;

(c) Evidence of good moral character, or, if the applicant is a business entity, that the principal partners or officers are of good moral character;

(d) Evidence that the applicant has sufficient experience in providing service of a comparable quality and quantity to ensure compliance with this title. If the applicant does not prove to the satisfaction of the Board that he has sufficient and successful experience, the Board may require the applicant to submit a corporate surety bond in the amount of up to \$20,000 guaranteeing full and faithful performance by the applicant of the duties and obligations of a franchisee naming county as additional insured;

(e) Evidence that the applicant has contracted with a disposal site for the right to dispose of wastes collected under and during the term of the franchise. Applicant shall sign a statement which provides that as a franchisee the franchisee shall use disposal sites authorized by the Board and that Board approval is required prior to applicant's disposing of solid wastes in alternate locations, and that the Board may, upon six-months' notice to any affected franchisee, by order, direct franchisee to dispose of solid wastes in a specific disposal site; provided, however, that in the event the Board by order selects a disposal alternative in its long-range solid waste disposal plan and makes a finding by language in that order that it is necessary for a franchisee to enter into a contract for a period exceeding six-months' duration in order to render disposal of solid waste economically feasible, the language contained herein granting the Board authority to direct, upon six-months' notice to any affected franchisee, that solid wastes be disposed of in a specific disposal site shall automatically by said order be repealed and of no further effect. Nothing contained herein shall affect the authority of the Board to determine authorized disposal sites or affect the requirement that a franchisee obtain Board approval prior to changing the site at which solid wastes are disposed; and

(f) If the applicant is not already serving the territory proposed to be served, applicant shall show that:

(A) The service territory has not been franchised to another person;

(B) The service territory is not being served presently by a franchisee pursuant to any schedule established as a part of the franchise in accordance with this title;

(C) The service territory is not being adequately served by the franchisee as evidenced by substantial history of recorded complaints from customers within the territory for a change of service to that area.

(5) Applicants shall specify the:

(a) Nature, type, and extent of service to be provided;

(b) Service territory for which application is made;

(c) Wastes that will not be accepted for collection or disposal; and

(d) Any special requirements for the handling of hazardous solid wastes.

(6) Applicants shall furnish a statement identifying familiarity with, and knowledge of, the service territory for which application is made. This statement may include information on geographic, demographic, and other characteristics germane to collection of solid wastes in the service territory. Applicants shall also supply a statement describing the proposed routes within the service area, including frequency of collection, hours of service, and other relevant information.

[1983 o.199 §1]

### **2.1065 Service Territories**

Four exclusive service territories shall be established initially by the administrator, subject to Board approval, to ensure that remote or otherwise non lucrative areas of the county are provided solid waste service. Each franchisee shall serve the service territory specified in the franchise, including all customers eligible for and requesting the type of service authorized by the franchise.

[1983 o.199 §1]

### **2.1070 Issuance of Collection Franchises**

The Board shall conduct a public hearing to consider the application within 30 days of receipt of the administrator's recommendation. Notice shall be served by certified mail on the applicant and any affected franchisee and shall be published once in a newspaper of general circulation within the franchise area not less than seven days prior to the hearing. The Board's decision shall be supported by written findings. The determination of the Board after conclusion of said public hearing shall be final. If the Board makes a final order rejecting all, or part of, the application for a franchise, the applicant may not submit another application for the same service territory, or a portion thereof, or the same disposal site, for a period of six months unless the Board finds that the public interest requires reconsideration within a shorter period of time. If the Board finds that an applicant is able to provide adequate service of all types within the service territory, it shall issue an exclusive franchise for that area to applicant. Upon receipt of said order granting a franchise, the applicant shall enter into a written franchise agreement with county. If the Board finds that two or more applicants for a service territory who are otherwise equally qualified, the Board may give preference to the applicant having a record of prior experience and service and who presently serves a majority of the customer and service accounts in the service territory. [1983 o.199 §1]

### **2.1075 Solid Waste Franchise Subcontracts**

(1) If a franchise applicant is unable to provide service for a particular type or unusually large quantities of solid waste, the administrator, subject to Board approval, may permit the franchisee to subcontract for such service if it is found that the quality and extent of service would not be jeopardized. The administrator may require the filing of such information as is necessary and

may request the recommendation of the committee on the subcontract. The administrator shall submit a written recommendation on the subcontract to the Board.

(2) Upon recommendation of the administrator and a finding by the Board that the need for service and final determination can be made, the Board may order the administrator to issue a temporary certificate, valid for a stated period not to exceed six months, requiring the person to serve a service territory or customers. [1983 o.199 §1]

### **2.1080 Responsibilities of Franchisees**

Franchisees may discontinue service to any customer in the following cases:

(1) When a change, restriction, or termination of service is required by any public agency;

(2) When a customer fails to pay for services in accordance with an established rate system.

Holders of solid waste franchises shall not discontinue service under this subsection without 10-days' written notice to the customer. If service has been refused to a customer for failing to pay for service, the franchisee may require a reasonable deposit to guarantee payment for future service before reinstating such service;

(3) If service at the particular location would be contrary to public safety; the customer has not provided reasonable access, or, weather conditions prevent service to the particular customer; or the customer has violated a rule or regulation adopted by the Board pursuant to this title;

(4) If a subcontract is signed pursuant to LCC 2.1075 and the Board has approved the subcontract after finding that the quality or extent of service would not be jeopardized. In making its determination, the Board or the administrator may request a recommendation from the committee and information deemed necessary to ensure compliance. [1983 o.199 §1]

### **2.1085 Enforcement of Franchises**

(1) If the franchisee shall at any time fail to promptly and fully conform and comply with any duty or obligation herein imposed after written notice to the franchisee and a reasonable opportunity to comply, the Board may authorize county personnel, or others, to perform the same at the sole cost and expense of the franchisee, and, the franchisee shall immediately become and remain liable to county for any and all loss, expense, and cost or damage incurred by county in that connection. Whenever the Board finds that the failure of service or threatened failure of service would result in creation of health hazards or public or private nuisances, the Board shall, after reasonable, but not less than 24-hours' written notice to the franchisee and a public hearing, if the franchisee requests such hearing, have the right to authorize another franchisee or other person to provide service or to use and operate the land, facilities, or equipment of the franchisee to provide service or to use and operate the land, facilities, or equipment, through leasing, to provide emergency service in the event of a serious interruption of service to all or to a class or group of customers for so long as such interruption continues.

(2) The Board reserves the right to make such further regulations as may be deemed necessary to protect the interests, safety, welfare, and property of the public and carry out policy, purposes, and findings stated herein.

(3) A franchisee shall at all times be subject to reasonable rules and regulations and any ordinance passed by the Board. A franchisee shall at all times be subject to applicable laws, rules, and regulations of the State of Oregon. A violation of such law, rules, regulations, or ordinance, if found by the Board to be substantial and material to the policy, purposes, and findings stated herein, may be deemed by the Board as a breach going to the essence of the franchise or permit.

(4) A franchisee shall be further bound as follows:

(a) It shall make the payments as herein provided promptly as they become due;

(b) Time is of the essence of a franchise;

(c) A waiver by county of any breach of any term, covenant, or condition of a franchise of this title shall not operate as a waiver of a subsequent breach of the same or any other term, covenant, or condition of a franchise or of this title;

(d) If a franchisee shall default in any of the terms, covenants, or conditions required to be performed, or in the payment of any sum required to be paid under the terms of this title, and said default shall continue for a period of 15 days after receipt of written notification sent by certified mail by the administrator, then and in that event, the franchise may, at the option of the county, be and become null and void and a franchisee shall thereafter be entitled to none of the privileges or rights herein extended and said franchisee shall thereupon cease and desist from any solid waste service under said franchise within the county; provided, however, that county may, at its option, pursue any other and different or additional remedy provided to it at law or in equity;

(e) This subsection applies to conditions within the control of a franchisee. Where the default or breach occurs by reason of lack of specialized equipment, availability of equipment or personnel, or similar reasons, a franchisee shall be given a reasonable opportunity to comply. Nothing in this subsection shall limit the rights and remedies of county under other provisions of this title; and

(f) In the event a franchisee becomes insolvent, then county may, at its option, terminate the franchise and all leases and other agreements, if any, entered into in connection therewith. [1983 o.199 §1]

### **2.1090 Enforcement of Ordinance**

County has authority to enforce the provisions of this title by administrative, civil, or criminal proceedings, or a combination thereof as necessary to achieve compliance with this chapter. [1983 o.199 §1]

### **2.1095 Parties Bound**

The terms of a franchise shall be binding upon a franchisee, its heirs, executors, administrators, successors, and assigns. [1983 o.199 §1]

### **2.1100 Franchise Term**

(1) The rights, privileges and franchise granted a franchisee pursuant to this ordinance shall begin on the date a franchise is granted and shall be considered as a continuing ten-year franchise. On January 1st of each year, the franchise is without further action renewed for an additional ten-year term unless at least thirty 30 days prior to January 1st of that year, one party notifies the other in writing of intent to terminate the franchise. Upon the giving of such notice of termination, the franchisee shall have a franchise terminating on December 31 of the eleventh year following the date of notice of termination. The parties may later extend the term of, or reinstate the franchise, conditioning renewal upon mutual agreement. Nothing in this section restricts the Board from suspending, modifying, or revoking the franchise for cause, pursuant to LCC 2.1085 of this ordinance.

(2) LCC 2.1100, as amended this date, shall be effective with respect to franchises existing as of the date of passage of this ordinance only when the franchisee and the Board of Commissioners agree in writing. Otherwise, unless the Board finds that in the public interest a

longer or shorter term is required, the term for a solid waste franchise shall be ten years. [1983 o.199 §1; 1988 c.269 §1]

### **2.1105 Franchise Fees**

The holder of a franchise granted pursuant to this title shall pay the following fees in the manner prescribed:

(1) Any solid waste franchisee shall pay a fee of three percent of the gross cash receipts from franchised collection service provided to the service territory included in the franchise.

(2) The collection franchise fee shall be computed and be payable to county annually within 30 days from the anniversary of the franchise agreement. The fee shall be accompanied by a sworn statement of such cash gross receipts. Each collection franchise holder shall maintain sufficient books and records to disclose the gross receipts from the service territory and shall make such books and records available at franchisee's premises at reasonable times and places for audit by authorized county personnel. The Board may specify reasonable requirements for keeping such books and records. [1983 o.199 §1]

### **2.1110 Renewal of Solid Waste Franchise**

(1) Renewal of a franchise shall be based on an application filed with the administrator. The procedure for review and renewal shall be the same as provided in sections 2.1060 and 2.1070.

(2) Based upon timely application of a franchisee, the Board may provide for renewal of the 10-year franchise term or such other term as the Board deems to be in the public interest prior to the expiration of the 10-year franchise term if the following conditions exist:

(a) Franchisee demonstrates a substantial need to purchase additional capital equipment to effectively discharge his obligations under the franchise agreement;

(b) Franchisee, through satisfactory documentation, demonstrates an inability to procure reasonable financing for such additional equipment without a franchise extension or renewal; and

(c) Based upon franchisee's record of performance in his service territory, the administrator finds that franchisee has complied with all provisions of this chapter, the franchise agreement, other applicable laws, rules, and regulations, and has adequately and competently rendered solid waste service. [1983 o.199 §1]

### **2.1115 Franchise Termination**

In the event a franchise is terminated prior to the expiration of the normal franchise term for any reason, the Board may prevent interruption of service as provided in LCC 2.1085. [1983 o.199 §1]

### **2.1120 Rate Structure**

County reserves the right, at any time during the period of a franchise, to examine the rate structure of a franchisee and to modify rate changes which, in the discretion of the Board, are reasonably required in view of the following considerations:

(1) A franchisee shall have the right to charge and collect reasonable compensation from persons to whom it shall furnish franchised services. "Reasonable compensation" shall be determined in light of the factors enumerated in LCC 2.1220(5).

(2) To facilitate considerations as in this section provided, a franchisee shall furnish and provide to the Board a certified copy of the published rate schedule, which rate schedule shall

contain the rates and charges made for all its operations. Said rate schedule, after having been filed as herein provided, shall be kept current and a franchisee shall file with the Board, at least 90 days prior to any contemplated change, a new and revised rate schedule which shall be examined by the Board in an appropriate public proceeding affording due process. Notification of the decision of the Board shall be made to the franchisee by certified mail. In the event of disapproval, franchisee shall not put the new rate schedule into effect, but may file with the Board, either on its own motion or in compliance with the Board's request, further information to justify the rate schedule changes. Negotiations shall be had in good faith between the parties. The existing approved rate schedule, as of the effective date of this title, shall be deemed to be in effect. The Board may require annual statements and other records to be furnished to the Board to carry out the intentions of this section.

(3) In the event of approval of a new and revised rate schedule, the new and revised rate schedule shall not apply to persons and groups who have an advance payment agreement with the franchisee until the normal expiration of said advance payment agreement.

(4) The rates in effect at the time this title takes effect and thereafter shall be subject to review and change only one time in a calendar year beginning January 1 and ending December 31 of the same year; provided, however, that:

(a) Upon application and without prior notice, the Board may, by order, grant an interim or emergency rate for new, special, or different service. The Board may specify the duration of said rate or continue it until final determination by the Board on the next overall rate adjustment.

(b) In addition to an annual rate adjustment, a supplemental rate adjustment may be requested when the cost of service is increased by governmental regulations and compliance therewith; or when there is substantial increase in a single expense that was not anticipated at the time of the last rate adjustment; or, when the total cost of service exceeds projected costs by five percent, or more.

(5) In reviewing rates, the Board shall make a finding that the rates comply with this section. The Board may consider rates charged by other persons performing the same or similar service. The Board shall give due consideration to current and projected revenue and expense, actual and overhead expense, the cost of acquiring and replacement of equipment, the services of management, local wage scales, concentration of customers in the area served, promotion of and providing source separation services, a reasonable return to franchisee, length of haul, cost of disposal, research and development, future service demands, cost of alternate method of disposal, interest payments, and such other factors as the Board deems relevant.

(6)(a) Notwithstanding any other provision of LCC 2.1000 through 2.1180, the Board may establish a fee on waste generated within those franchises which have utilized the Agate Beach Landfill/Balefill. The fee shall be set from time to time by resolution of the Board at a level which will cover all expected costs including but not limited to financing closure and post-closure debt instruments. The fee shall be collected by the respective franchisees based on waste generated within the franchise area and remitted by franchisees monthly to Lincoln County. Lincoln County shall receive all fee proceeds to be held in trust exclusively for Lincoln County's proportional share of on-going closure and post-closure costs of the Agate Beach Landfill. Upon full funding of the costs of such closure and post-closure activities, Lincoln County shall end the Agate Beach closure fee.

(b) The institution of this fee is accepted by franchisees as an amendment to the provisions of LCC 2.1000 through 2.1180 and shall be binding upon them, their successors, heirs, or assigns. A separate executed instrument signifying the franchisees acceptance shall be placed in the records

of the County. This subsection constitutes an amendment of the original franchise agreement. [1983 o.199 §1; 1993 o.318 § 1]

### **2.1122 Definitions for LCC 2.1122 through 2.1126**

Examples of such shared costs include, but are not limited to, labor, equipment or administrative costs.

(2) “Allowable expenses” means those expenses incurred by a franchisee in the performance of this agreement that are acceptable as reimbursable by the ratepayer as enumerated below. Allowable expenses, as qualified above, shall include, but not be limited to, the following:

(a) The costs of complying with all laws, regulations or orders applicable to the obligations of franchisee.

(10) "Revenue requirement" means the sum of the quotient of allowable expenses divided by the operating ratio, expressed as a decimal, and pass through expenses.

### **2.1124 Determination of Rates**

(1) Franchisee shall charge and collect those rates adopted each year in accordance with this section. The rates set shall be fixed at a level sufficient to produce a revenue requirement for the franchisee that is equal to the quotient of allowable expenses divided by the operating ratio, expressed as a decimal. The operating ratio for this agreement shall be calculated at 88 percent. For purposes of this section, the rates shall include all monies collected by the franchisee for the services provided pursuant to a franchise granted by the county, including, but not limited to, charges for collection of solid waste and recyclable materials, revenue from the sale of recycled material, disposal charges, surcharges, fees and taxes. Revenue shall also include any other monies received by the franchisee from any other entity as compensation for services allocated fairly and reasonably to the jurisdiction and customers receiving said services.

(2) The franchisee and its affiliates may use common resources, such as equipment, fuel, labor, management, and administration, to service the county and other nearby jurisdictions. In such cases, it will be necessary to allocate the costs of such resources among the jurisdictions they serve. Franchisee and the county shall mutually agree upon an allocation formula, which may be amended upon the written mutual consent of the franchisee and the county, and shall be applied, as amended, to determine allowable expenses throughout the term of the franchise.

(3) The three factors that will be used to allocate these costs are:

(a) Labor hours: Used to allocate labor costs. Vehicle costs will also be allocated on labor hours as a substitute for engine hours. If, in the opinion of the operator, these hours would not be materially similar, then a four-factor formula would need to be implemented which would include engine hours to allocate the cost of vehicles.

(b) Weight: Average vessel weights used to allocate disposal.

(c) Customer base: Weighted customer counts used to allocate general, administrative, and management expenses.

(4) The methods for collecting the data for the factors described in subsection (3) of this section are:

(a) Labor hours: A 'time on route' form will be completed by route drivers one week each quarter. This data will then be summarized and averaged for application to the annual accounting data, or summarized and applied to the specific quarterly accounting data.

(b) Weight: Quarterly weight statistics will be generated by the company to obtain quarterly average vessel weights. These weights will then be applied to route list customer data to obtain relative weights per route. These relative weights per route will then be applied to the cost of disposal.

(c) Customer base: This data is readily available from computer reports generated in conjunction with billing and route list preparation.

(5) The factors described in subsection (3) of this section will be captured and applied to the costs on a periodic basis. The county and the franchisee agree that test periods shall be utilized, at least quarterly, to collect this data.

(6) Commencing on April 1, 2003, but in no event after April 1, 2004, the franchisee will submit to the county an annual report of operations prepared by the hauler's certified public accountant, showing the actual allowable expenses incurred by the franchisee in the preceding fiscal year, all additional allowable expenses the franchisee reasonably anticipates will be incurred or imposed in the current fiscal year, the allocation formulas used to determine expenses, the actual operating ratio for the preceding fiscal year, and the expected operating ratio for the current fiscal year.

(7) Except as provided in subsection (8) of this section, a cost of living rate adjustment shall be made every other year commencing with the completion of the report described in subsection (6) of this section, and according to the following procedure:

(a) Commencing on June 1, 2004, and on June 1 of each even numbered year thereafter (the adjustment date) throughout the term of the franchise, the rates shall be adjusted in an amount equal to 85 percent of the two-year percentage change in the Consumer Price Index for all Urban Consumers for West B/C, All Items (1982-84=100) published by the Bureau of Labor Statistics (the index) that occurred between the months of May and April of the previous and the current years. The adjustment shall not exceed six percent in any two-year period. In addition, no cost of living adjustment shall be allowed if the adjustment would cause the franchisee to project operations in excess of the operating ratio range. The adjusted rates shall become effective on each July 1, thirty days following the adjustment date.

(b) On each adjustment date, the then current rates shall be multiplied by the calculated percentage change in the index for the year.

(c) On or before each adjustment date, the franchisee shall send to the county a revised rate schedule reflecting the proposed new rates, as adjusted by the index as provided in this subsection. Upon adoption, the revised rate schedule shall become effective on July 1 of each year.

(d) If a rate adjustment occurred in the previous year due to an upward adjustment of the rates due to a formal rate review, then the franchisee is only eligible for 85 percent on the one year change in the Consumer Price Index.

(e) In the event that the Index for Urban Consumers of West B/C is no longer published by the Bureau of Labor Statistics, the franchisee and the county shall negotiate in good faith and agree upon a suitable replacement index reflective of the cost of living in the franchise area.

(8) If the report described in subsection (6) of this section indicates that the operating ratio for the next succeeding 12-month period will be less than 85 percent or greater than 91 percent, then a rate review will automatically be implemented in accordance with this section. No more than five consecutive years shall pass during the term of this franchise without a formal

rate review as set forth in this section. In the event a rate review is requested or required as provided in this section, the following procedures shall bind the county and the franchisee:

(a) The county shall review the report and, if the county's review of the report indicates that the operating ratio is likely to be greater than 85 percent or less than 91 percent, the county shall adopt rates for the next year, either as proposed by the franchisee in the report, or as modified by the county, no later than June 15. The adopted rates shall then become effective no later than July 1, and shall supersede the rates that were previously in effect. The adopted rates shall provide the franchisee an operating ratio of 88 percent.

(b) In the event the report shows that the operating ratio for the current fiscal year is not likely to be greater than 85 percent or less than 91 percent, the existing rates shall not be adjusted, and the current rates shall continue in effect until next adjusted in accordance with subsection (7) of this section. The county shall set all policies and procedures respecting the implementation of rates and shall direct the franchisee to carry out such policies and procedures. The county, its agents or employees may, upon reasonable notice and during normal business hours, audit those records of the franchisee that pertain to revenue and allowable expenses. However, in reviewing such records, the county and its agents and employees shall maintain the confidentiality of the records, and not disclose, divulge or transmit the records, or copies of the records, to any third party, except as may be compelled under law or by a court of competent jurisdiction.

(c) Upon review by the county, if it is found that deliberate or malicious material misrepresentation of books, records, accounts or data relating to collection service operations has occurred, the franchisee shall pay all review costs incurred by the county.

(9) In the event the franchisee, at any time, becomes liable to pay any new or increased legislated costs, including surcharges, fees, or expenses associated with regulatory requirements, or any new or increased disposal or long-haul transportation costs or fees, and these costs represent in excess of three percent of gross revenue, then all such costs and fees shall be immediately passed through and added to the existing rate structure upon the county's receipt and verification of the franchisee's documentation of, and liability to pay, those new costs or fees. In the event the franchisee, at any time, experiences a reduction in these costs, in excess of three percent of gross revenue, then all such savings shall be immediately passed through and subtracted from the existing rate structure upon the county's receipt and verification of the franchisee's documentation of those reduced costs or fees. The franchisee shall include all such costs, cost savings, and fees in the next succeeding year's report as actual allowable expenses of the franchisee. [2003 o.425 §3]

**2.1125** [1983 o.199 §1; repealed 2003 o.425 §7]

### **2.1126 Reports and Records**

(1) The following reports and information shall be submitted by the franchisee to the county in accordance with the following schedule: Commencing with the first rate adjustment request by the franchisee, and on each April 1<sup>st</sup> thereafter, the franchisee shall submit the annual report in the format approved and distributed by the county, consisting of the following:

(a) Financial statements for the franchisee for the preceding year, with schedules prepared by the franchisee's certified public accountant to provide backup for any allocated expenses. The

franchisee shall also identify any expense incurred with an affiliated company. At the county's request, the franchisee shall provide backup as is reasonable to verify expenses;

(b) Equipment and depreciation schedules and equipment replacement projections for the current year;

(c) Projected allowable expense and pass-through expense for the current year;

(d) Projected gross revenue for the current year, based on current levels of service and the current rate schedule before any cost of living adjustment; and

(e) Subject to the conditions of LCC 2.1124, a proposed rate schedule to be effective July 1, with rationale as to how the rates were developed.

(2) Records and information requirements: The franchisee shall maintain accounting, statistical, operational, and other records related to its performance under the franchise agreement. Also, the franchisee agrees to conduct data collection, information and record keeping, and reporting activities needed to comply with applicable laws and regulation and to meet the reporting and solid waste program management needs of the county. To this extent, requirements set out in this agreement shall not be considered limiting or necessarily complete. In particular, this section is intended to only highlight the general nature of records and reports, and is not meant to define exactly what the records and reports are to be, and their content. Further, with the written direction or approval of the county, the records and reports to be maintained and provided by the franchisee in accordance with this agreement shall be adjusted in number, format, or frequency. This is not intended to require significant additional administrative labor, or the modification of the franchisee's computer software.

(3) All records shall be maintained for at least five years after the expiration of this agreement, with the exception of accounts payable records, which shall be maintained for at least three years after payment. The records addressed in this agreement shall be provided or made available to the county and its official representatives during normal business hours.

(4) Solid waste records: Records shall be maintained by the franchisee for the county relating to:

(a) Customer service and billing;

(b) Weight and volume of solid waste and recyclable materials;

(c) Routes;

(d) Facilities, equipment and personnel used;

(e) Facilities and equipment operations, maintenance and repair;

(f) Disposal of solid waste;

(g) Complaints; and

(h) Missed pick-ups.

(5) CERCLA defense records: The county views the ability to defend against litigation brought under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 USC § 9601, *et seq.*), and other related litigation, as a matter of great importance. For this reason, the county regards the ability to prove where solid waste collected in the county was taken for disposal, as well as where it was not taken, to be matters for concern. Franchisee shall maintain data retention and preservation systems which can establish where solid waste collected in the county was land filled, and therefore establish where it was not land filled, and provide a copy or summary of the reports required for at least five years after the term during which collection services are to be provided pursuant to this agreement, or to provide copies of such records to the county.

(6) Disposal records: The franchisee shall maintain records of disposal of all solid waste collected in the county for the period of this agreement, and all extensions to this agreement or successor agreements. In the event the franchisee discontinues providing solid waste services to the county, the franchisee shall provide all records of disposals or processing of all solid waste collected in the county within 30 days of discontinuing service. Records shall be in chronological order, and organized in a form and manner that is capable of easily and readily being understood and interpreted.

(7) Reporting responsibilities:

(a) At the time of payment of the annual franchise fees, the franchisee shall file with the county a sworn and verified statement of annual gross revenues for the period covered by the tendered fee. Such statements shall be public records. Each franchisee shall maintain books and records disclosing the gross receipts derived from business conducted within the county, which shall be open at reasonable times for audit by county personnel or assigned agents. The county may require a uniform system of bookkeeping and record keeping to be used by all franchisees.

(b) Deliberate or malicious misrepresentation of gross revenues by a franchisee constitutes a major contract violation, and may be cause to initiate the process to terminate the franchise.

(c) The Board may change the amount and computation of franchise fees from time to time.

(8) Confidentiality of annual rate review reports: Franchisees may identify information submitted to the county as confidential. The county shall treat any information marked confidential as being confidential, and shall not subject the confidential information to public disclosure except as required by law or by order of a court of competent jurisdiction. If the county receives a request for disclosure of confidential information, the county shall notify the franchisee within five business days of receiving the request, in order to allow the franchisee a reasonable opportunity to defend against the requested disclosure through appropriate legal process.

(9) Reportable incidents and events: The franchisee shall provide the county with two copies, one to the Board and one to County Counsel, of all reports, pleadings, applications, notifications, notices of violation, and all other formal actions relating specifically to the franchisee's performance of services pursuant to this agreement, submitted by franchisee to, or received by franchisee from, the United States Environmental Protection Agency, the Oregon Department of Environmental Quality, or any other federal, state, or local agency, including federal or state court actions brought by any of the these agencies, with regard to franchisee operations within the State of Oregon. Copies shall be submitted to the county simultaneously with franchisee's filing or submission of such matters with the agency or court. A franchisee's routine correspondence to the agency or court need not be submitted to the county, but shall be made available to the county upon written request.

(10) The refusal or willful failure of a franchisee to file any required report, or to provide required information to the county, or the inclusion of any materially false or misleading statement or representation by the franchisee in a report, shall be deemed a material breach of this agreement, and shall subject the franchisee to all remedies which are available to the county under this agreement.

(11) Vehicle inventory: The franchisee, in conjunction with the annual report, shall provide the county with an inventory of vehicles used by the franchisee within the county. The

list shall include vehicle make, year of manufacture, model name, vehicle identification number (VIN), and PUC numbers.

(12) Access for inspections and delivery of notices:

(a) Franchisees shall make all company premises, facilities and records related to their solid waste, recyclable materials and yard debris collection services, including, but not limited to, offices, storage areas, financial records, non-financial records, records pertaining to the origin of any solid waste collected by the franchisee, receipts for sale or delivery of collected recyclable materials, customer lists, and all records related to vehicle maintenance and safety which are required under Oregon Department of Transportation motor carrier requirements and regulations and ORS chapter 767, available for inspection by the county, the Lincoln County Solid Waste District, and their employees or assigned agent, within 24 hours of notice by registered mail. Inspections are only for purposes of enforcing this agreement, and are restricted to normal business hours.

(b) During normal business hours, the franchisee shall make all company premises and facilities accessible to county employees or assigned agents for delivery of any written notices.

(c) Franchisee collection vehicles must be accessible for inspection during the normal operating hours for collection, in addition to normal business hours. Where receptacles are stored in the public right-of-way, or when the county is conducting an inspection in a situation where the franchisee is allegedly disposing recyclable or yard debris with solid waste, the need for 24-hour notice does not apply to inspection of receptacles or vehicles. [2003 o.425 §4]

#### **2.1128 Solid Waste District User Fee**

(1) The Lincoln County Solid Waste Disposal Service District hereby establishes a user fee on waste generated within Lincoln County that shall be collected by the franchised solid waste haulers within the county, or through other agreements as may be entered into by the District, beginning July 1, 2003, at an initial rate of \$4 per ton of waste. The fee may be adjusted from time to time by resolution of the Board of Commissioners, acting as the governing body of the District, at a rate that will cover projected costs of the District. Fee changes shall be timed to correspond to the schedule for the annual review authorized by LCC 2.1122 to 2.1126 (Uniform Rate Reporting Format) and shall be reviewed by the District's Solid Waste Advisory Committee and Budget Committee. The fees shall be based on the waste generated within the solid waste franchised areas and disposed at sanitary landfills. Lincoln County shall place all fee proceeds in a fund to be used exclusively for the Lincoln County Solid Waste Disposal Service District.

(2) Pursuant to a separate executed instrument signifying each franchisee's acceptance, the fees shall be collected and remitted on a monthly basis to Lincoln County by the franchised solid waste haulers within the county. If the agreements are not accepted or are terminated by any franchisee, the District shall collect a fee through other agreements or methods, as it may deem appropriate. [2003 o.428 §2]

#### **2.1130 Service to be Rendered**

(1) In addition to serving regular customers, the franchisee shall pick up and haul away all solid waste at the request of any resident of the county in franchisee's area where service is provided. The Board may specify when remote, sparsely populated areas will be served and the frequency of service. A franchisee shall not, without good cause proved by franchisee to the administrator, refuse to provide service to any person living or conducting business within its

service territory in the county; provided, however, a franchisee may refuse to provide service upon one or more of the following conditions:

(a) Upon nonpayment of a billing or portion thereof for service within the time provided therein and after 10-days' further written notice, from the date of mailing to the customer that service will be terminated unless full payment is made.

(b) Upon refusal to pay any required advance payment for service, or, if provided in the rate schedule, a charge for reinstating service after discontinuance for nonpayment, or a charge for starting a new service.

(c) Street or road access is blocked.

(d) Excessive weather conditions, as determined by a franchisee, render the providing of service hazardous to the persons actually providing the service or to the public.

(e) Where prevented by an act of God, public enemy, or vandal.

(f) Customer violation of service standards in LCC 2.1140.

(2) Any franchisee shall, where applicable, provide, maintain, and use adequate equipment to handle and dispose of or resource-recover solid waste; will handle collected solid wastes in a good and workmanlike manner; will transport all liquids in a watertight, drip-proof container; and, will provide equipment that meets all applicable laws, ordinances, regulations, and standards, including, without limitation, amendments to this title.

(3) Equipment and work supplied by any franchisee shall be to the reasonable satisfaction of the administrator.

(4) No franchisee is required to store, collect, transport, transfer, dispose of, or resource-recover any hazardous waste; provided, however, that such franchisee may engage in one or more of those activities separate and apart from this title, but in compliance with all applicable local, state, and federal laws. [1983 o.199 §1]

### **2.1135 Hold Harmless**

The privileges granted to a franchisee are upon the express condition that said franchisee shall be liable for all damages or injuries to persons or property caused by the negligence or mismanagement of the franchisee or any employees or agents of franchisee while engaged in the business under the terms of the franchise. Should county, or any of its officers, agents, or employees in the scope of their employment be sued for damages caused in whole or in part by the operations of a franchisee under the terms of the franchise, the franchisee shall be notified in writing of such suit and thereupon it shall be the duty of the franchisee to defend or settle the suit and should judgment go against county, its officers, agents, or employees, the amount thereof shall be recovered with costs and attorneys' fees from franchisee. The record of judgment against county, or any of its officers, agents, or employees, in any such case, shall be conclusive evidence to entitle county, its officers, agents, or employees to recover against the franchisee. This section shall not require a franchisee to defend, indemnify, or settle any suit or action against county, its officers, agents, or employees brought under, nor indemnify county, its officers, agents, or employees for damages awarded pursuant to ORS 646.705, et seq., or Title 15 of the United States Code, unless such suit or action arises out of activities of the franchisee, or any agents or employees of franchisee, not authorized by this title. [1983 o.199 §1]

### **2.1140 Public Responsibilities**

(1) No person shall place hazardous wastes out for collection or disposal by the franchisee nor place it into any solid waste container or box supplied by the franchisee without prior notice to and prior written approval from the franchisee. A person placing such wastes for collection shall, prior to the notice to the franchisee, obtain the approval of the disposal site to be used for the disposal of such wastes. Where required, an additional approval shall be obtained from the local government unit having jurisdiction over the disposal site. This disposal approval shall be in writing, signed by the person designated by the disposal site or local government unit affected. Either the franchisee or the disposal site or the local government unit having jurisdiction of the disposal site may require written authorization from the Oregon Department of Environmental Quality for the handling of such hazardous wastes. This subsection does not apply to household waste generated at and by a single family residential dwelling unit.

(2) A franchisee is not required to service an underground container unless the person responsible for it places the can above ground prior to collection.

(3) No can for residential service shall be located behind any locked or latched gate or inside any building or structure nor exceed 60 pounds gross loaded weight.

(4) Each customer shall provide safe access to the solid waste or solid waste container without hazard or risk to a franchisee's employees or a franchisee. [1983 o.199 §1]

### **2.1145 Rate Preferences Prohibited**

(1) No franchisee subject to rate review by this title shall give any rate preference to any person, locality, or type of solid waste stored, collected, transported, or disposed.

(2) Nothing in this section is intended to prevent:

(a) The reasonable establishment of uniform classes of rates based upon length of haul; type of solid waste stored, collected, transported, or disposed; or the number, type, and location of customers served; or upon other factors as long as such rates are reasonably based upon costs of the particular service and are reviewed by the committee and the Board in the same manner as other rates;

(b) Any person from volunteering service at reduced cost for a charitable, community, civic, or benevolent purpose. [1983 o.199 §1]

### **2.1150 Payment**

**2.1160** [1983 o.199 §1; repealed 1994 o.333 § 8]

### **2.1165 Severability**

If any section, subsection, sentence, clause, or portion of this title is for any reason held invalid or declared unconstitutional by any court of competent jurisdiction, such portion shall be

deemed a separate, distinct, and independent provision and such holding shall not affect the validity or constitutionality of the remaining portion hereof. The Board hereby declares that it would have passed this title and each section, subsection, sentence, clause, and phrase hereof irrespective of the fact that any one or more sections, subsections, sentences, clauses, or phrases be declared illegal, invalid, or unconstitutional. [1983 o.199 §1]

### **2.1170 Penalties**

Violation of this title, or any rules or regulations adopted by the Board pursuant to this title, shall be deemed to be a violation of county laws and is punishable upon conviction by a fine of not more than \$500; provided, however, that each day of continued violation is a separate offense and is separately punishable, but may be joined in a single prosecution. In addition, county shall have the right to pursue any additional remedy provided to it under law. [1983 o.199 §1]

### **2.1175 Appeals from the Decisions of the Administrator**

(1) The Board may, upon its own motion or upon the request of an interested person or affected public agency or body, review any decision of the administrator or committee and may affirm, modify, reverse, or rescind the decision of the administrator.

(2) In reviewing appealed actions, the Board may request the recommendation of the committee, and hold public hearings after notice to affected persons.

(3) This section applies only to decisions of the administrator relating to enforcement of provisions in existing solid waste disposal franchises granted pursuant to this chapter. [1983 o.199 §1; 1993 o.323 §2]

### **2.2010 Findings and Policy**

(1) The Board of Commissioners for Lincoln County has found that excessive sound can and does constitute a hazard to the health, safety, welfare, and quality of life of residents of the county.

(2) The Board has further determined that while certain activities essential to the economic, social, political, educational and technical advancements of the citizens of the county necessarily require the production of sounds which may offend, disrupt, intrude and otherwise create hardship

among the citizenry, the Board is obliged to impose some limitations and regulation upon the production of excessive sound as will reduce the deleterious effects thereof.

(3) It is, therefore, the policy of this Board to prevent and regulate excessive sound wherever it is deemed harmful to the health, safety, welfare and quality of life of the citizens of Lincoln County. This chapter shall be liberally construed to effectuate that purpose. [1989 o.280 §1]

### **2.2015 Administration and Enforcement**

(1) The Sheriff of Lincoln County shall administer, supervise and perform all acts necessary to enforce this chapter.

The sound producing device, if seized, shall be impounded subject to disposition of the issued citation and determination by the court whether the sound producing device shall be returned to the cited person or deemed contraband, subject to LCC 2.2045(2). It is the intent of this chapter to void such seizures, except where the person being cited has received two previous citations within the previous six months for the use of the same or similar sound producing device. The previous citations may, but need not, occur on the same date as the citation which prompts the seizure.

(4) Citation forms authorized pursuant to LCC chapter 10 may be used for any violation of this ordinance.

(5) In addition to any other enforcement procedures, the Board of County Commissioners may, upon its own motion or upon receipt of a petition requesting a hearing by the Board, signed by no fewer than five persons residing in the vicinity of a property upon which is located an alleged violation of this chapter, issue its order to the person producing or permitting to be produced the sound which allegedly violates this chapter to appear before the Board and show cause why the Board should not declare the sound a violation of this chapter and order the violation abated. Noncompliance with the order may result in the Board referring the order to the county counsel for injunctive enforcement or, alternatively, to the district attorney for appropriate action. [1989 o.280 §1]

(1) If measurements are made, they shall be made with a sound level meter. For purposes of this chapter, a sound level meter shall contain at least an A weighed scale and both fast and slow meter response capability.

(2) If measurements are made, personnel making those measurements shall have completed training in the use of the sound level meter, and measurement procedures consistent with that training shall be followed.

At no time may the sound from an idling vehicle, when measured in accordance with subsection (1)(b) of this section, exceed 15 dBA more than the levels established therein.

(4) If a measurement of the sound is made, subsection (1)(b) of this section shall supersede subsection (2) of this section and shall be used to determine if a violation exists.

(5) When the sound is emitted from motorboat, it shall not be subject to the standards above but a violation shall be established where the sound exceeds 75 dBA as measured on shore, provided that the measurement be taken no closer than 150 feet from the boat. Where a measurement is taken from a distance closer than 150 feet, a violation shall be established where the sound exceeds 84 dBA measured no closer than 50 feet from the boat. (1) Sounds caused by organized athletic or other group activities, when those activities are conducted on property generally used for those purposes, including: stadiums, parks, schools, churches, athletic fields, race tracks, airports, and waterways; provided, however, that this exception shall not impair the Sheriff's power to declare the event or activities otherwise to violate other laws, ordinances, or regulations.
