School Based Health Center Mission

The School Based Health Centers serve to improve the health of students by providing medical care, mental health care, health education, and coordination of needed health and social services.

Goals: Healthy Kids Learn Better

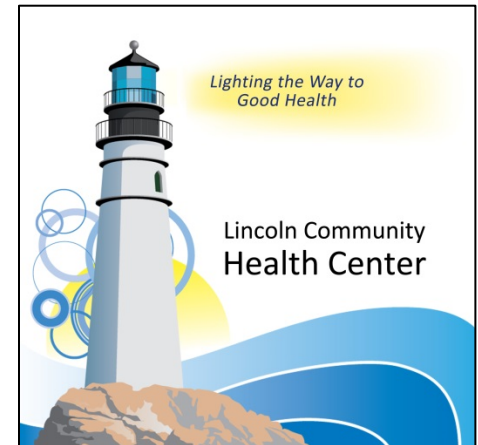

Improve the health and well being of children by:

- Providing easy access to primary and preventive health care
- Addressing health issues while teaching healthy behaviors
- Providing comprehensive services through case management and collaboration with community partners

Lincoln County School Based Health Centers are provided as a partnership between the Lincoln County School District and Lincoln County Health & Human Services. Funding is provided by the Oregon State Department of Human Services and many state and local agencies and civic organizations.

Donations are Accepted.

What are the School Based Health Centers?

The School Based Health Centers (SBHC) are health clinics located at Newport High School, Taft High School, Toledo High School and Waldport High School. The SBHC's provide easy access to medical and mental health services.

Who can receive services?

All Lincoln County students Kindergarten through 12th grade are eligible to receive care, provided we have consent. However, students are urged to seek care with their private doctors who are familiar with their medical histories.

What do services cost?

Services are based on Fee for Service, subject to ability to pay. Medicaid and/or private insurance providers will be billed for care. No one is turned away for inability to pay.

Who is on staff?

Lincoln County School Based Health Centers provide licensed professional providers such as Nurse Practitioners, Physician Assistants, Registered Nurses, and Mental Health Clinicians. A licensed physician provides medical oversight. Clinic Assistants and Health Services Advocates provide support and assistance.

What services are provided?

- Top quality medical care, health maintenance, education, risk assessment, and counseling
- Diagnosis and treatment of minor illnesses
- Physical exams
- Treatment of minor injuries
- Immunizations
- Mental Health and Substance Abuse screening, assessment, treatment and group counseling
- Nutrition education
- Vision, hearing and dental screenings
- Health education and wellness promotion
- Referrals for health care services
- Oregon Health Plan eligibility screening and sign-up

How are students referred to the health center?

Parents, students, and school staff can refer a student to the health center.

Are appointments needed?

Appointments are accepted, and walk-ins are also welcome.

Who will see the student's medical records?

Health center services are private and confidential. Health center records will not become part of a student's school record and information cannot be shared with school personnel without written consent.

Confidentiality Notice:

All services are confidential, however, if we feel a student is in danger of hurting themselves or others (OAR 309-33-200), or if abuse of any kind is suspected (ORS 419B-010; 419B015), we are required by law to report this information. Animal bites and certain communicable diseases must also be reported (ORS 433-004; OAR33-14-000).

SBHCs follow Oregon Law:

According to Oregon Law, students aged 15 and over may access all services for themselves. Oregon State law also permits youth aged 14 and older to seek mental health and alcohol and drug services without parental permission (ORS 109.675). Oregon State law allows students of any age to receive care for sexually transmitted diseases and birth control information and services (ORS 109.640).

Lincoln County does not discriminate against any person with regard to race, age or mental or physical handicap regarding terms of employment, provision of service and access to public facilities.
