A community's most important obligation is to provide a good education to its youth. Beyond that basic level, a community has the opportunity to provide basic and continuing education through a community college. This is especially important in rural areas such as Lincoln County. Through a strong community college, the mechanism is available to stabilize the lives and provide training important for good employment opportunities within our community.

Oregon Coast Community College is of great service to our communities throughout Lincoln County. It is well-run and efficient with its resources. I have served on the board in the past and would appreciate the opportunity to serve my community again.

I continue to be very thankful to Lincoln County's voters for funding permanent campus space! Our beautiful North County campus was completed on time and under-budget last year, and this year we are set to open the Central and South County campuses on time and within budget. These locations will offer many opportunities for county residents in workforce training, business development, and lifelong learning. We are developing buildings that are useful, cost-effective, environmentally responsible, and aesthetically pleasing.

OCCC has added a highly-successful Associated of Applied Science Degree in Nursing program. Students completing the first year of the program can take the LPN (Licensed Practical Nurse) exam, and those successfully completing the program are eligible to take the Registered Nurse (RN) exam. Our first class of nurses graduated last year, and 100% passed the RN exam.

I strongly support OCCC's "Expanded Options" program offering qualified high school students a head start on college degrees before they graduate from high school. I was fortunate to be able to take transfer coursework at Umpqua Community College allowing me to earn my bachelor's degree three years after my high school graduation. I'm hopeful many local students will benefit from this unique program as well.

If you have items of interest or concern regarding Oregon Coast Community College you'd like to discuss, please contact me at 961-2566, or reelectchris@peak.org

I ask for your vote for re-election May 19.

A community's most important obligation is to provide the best education to its youth. The Lincoln County School District cannot do this alone. It takes the whole community. We need the participation of its citizens in decision making. That is why I am running for the Lincoln County School District Board of Directors. Providing a well-rounded quality education is the single most valuable gift we can give our children.

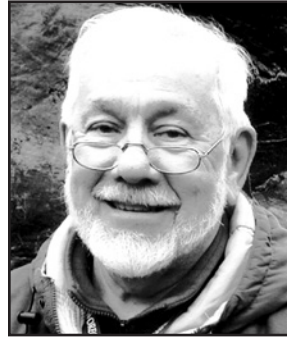

The question I am looking to answer is: Are our children getting the best possible education, or are they getting caught up in the middle of the budget crises, teacher salaries, poor decisions making, and the loss of students to charter schools?

- When elected I will work on:
1. Providing teachers and staff with the necessary tools they need to educate our youth.
 2. Discovering creative ways to balance the budget while improving the school experience.
 3. Recruiting and keeping the best teachers.
 4. Ensuring that proper decisions are made for the future schools and the school district.
 5. Finding ways to retain our students in the public schools instead of losing them to charter schools. Like having charter schools within our public schools.
 6. Getting more community involvement.

It goes without saying that we face some difficult challenges in the years ahead. I will focus on the student while working on the issues listed above. I will promise you hard work and a commitment to achieve the best for our youth. With the help of the other board members, the community, and especially the teachers we can make a difference in the schools and in the education of our children. Please join me in making a better tomorrow, today.

One of the largest tasks facing the Lincoln County School Board is managing its budget in difficult financial times. As a candidate for the school board, I bring many years of budgeting experience in both the public and private sectors.

For eight years I have volunteered at Crestview Heights School as a reading buddy and member of the Site Council. This experience has given me wide exposure to the challenges facing our teachers and staff, and the myriad decisions necessary for the smooth running of the school. I've also had insight into how budgeting decisions impact the day-to-day operation and the long-term planning of the school's mission.

I support the District's vision "Quality Learning for All" and want to help make Lincoln County schools the highest quality they can be. I believe quality schools where children can be nurtured and taught are directly related to the well-being of our communities.

My involvement with Port of Newport activities began several years ago, when the Port announced it was negotiating with Bay Bridge Enterprises to set up a shipbreaking facility on the Yaquina Bay. Since that debacle, I've followed the Port's activities from the sidelines.

I've watched as the Port has made grossly inadequate progress toward Terminal Reconstruction, even though the bond was passed more than 27 months ago. More recently, I've seen the Port's reputation sullied by findings of illegal bond measure campaign activity, a failed recall effort, and failure to protect the Bay from potential oil leakage. Clearly, changes are needed.

When an opportunity to run for Port Commissioner presented itself, I decided to step forward.

I grew up in the Washington DC area, and lived in the Florida Keys for ten years. I've worked for large corporations and for very small businesses. I understand how federal and state regulations can affect local actions, and I understand the importance of a strong economy.

I work at the Hatfield Marine Science Center and, during the last ten years, have learned both why and how much of Newport's economic base – commercial fishing, tourism and ecotourism, marine research, retirees – depends upon a healthy Yaquina Bay.

I ask for your vote for Port Commissioner. If elected, I pledge to work with the Port of Newport in an open, efficient, and transparent manner to enhance the health and economic well-being of the Port of Newport, Yaquina Bay and the City of Newport, and to move the Terminal Reconstruction project to a satisfactory, environmentally - and economically-friendly resolution.

The Port of Newport is a vital team player in the healthy economics of Newport, Lincoln County and Oregon. I would be honored to be re-elected to position #4 where I will continue to present a balanced representation for my varied constituents.

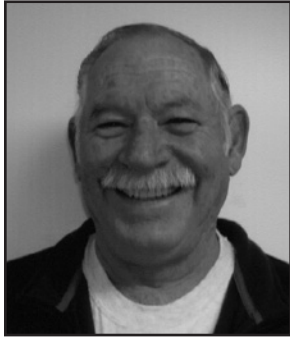

I have lived and worked in Newport for the past 17 years as a marine tourism business owner/operator – presenting floating programs to schools and visitors in a variety of areas – marine science and sea life; fisheries and coastal culture, all designed to send them home with a sense of stewardship for the coast. I also bring 20 years of prior owner/captain experience in both near shore and distant water commercial fishing operations.

I pledge to continue a balanced perspective, listening with “due diligence” to all parties, while taking the responsibility of my position very seriously. My combined 35 years of Oregon coast marine business experience has given me a deep respect for the past; prepared me to deal with current issues affected by a cyclic economy with a variety of stakeholders, and committed me to maintain a steady eye forward, to a port that will benefit my community today and the generations to follow.

I have served on the Port of Toledo's budget committee for the past 4 years.

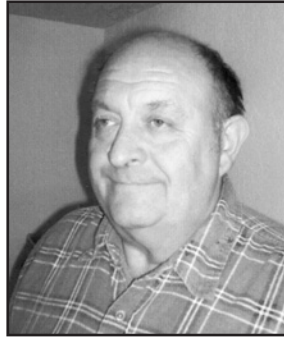

As fishing and boating enthusiast, I truly use the docks and want to insure they are maintained for all other sportsmen.

As a local merchant I would like to see the Port help to generate more revenue for the local economy. The port is a valuable resource that we must capitalize upon. By dredging the river and helping the fishing industry, we will ultimately help our local businesses.

It is a challenge to create more jobs, industry, and growth for our area. I would like to be a part of that challenge.

Hi Voters,

I'm proud to be running for the Port of Toledo again this term. I have lived in Lincoln County most of my life, graduated from Toledo High School and I now live in Siletz. As one of your current Port Commissioners, I am very encouraged with the direction the port is currently heading.

I am truly pleased that the port is both directly and indirectly involved in supplying jobs for well over 60 people in our community, including those businesses that rent land and some buildings from the port. The Port Commissioners and I are in agreement that the Fred Wahl shipyard property will add living wage jobs to our area. Along with some of the other Port Commissioners, I will bring as many living wage jobs to our port district as I can and support anyone who does the same.

I am the port representative on the Council of Governments Area Commission on Transportation. Among many other projects, I have been working along side ODOT for 18 years to help better the roads and bridges around Lincoln, Lane and Benton Counties. I am very pleased with the Hwy 20, Logsden Bridge, and Lincoln City upgrades.. With government, everything takes a lot of time. So there are many of us who have worked on these projects for all counties.

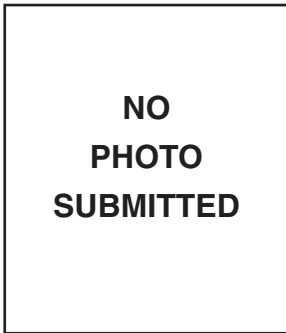

It will be enjoyable to continue working on our Toledo waterfront development projects and to be part of the port's annual Wooden Boat Show.

As a union carpenter and contractor, I am for the working people and their rights. I enjoy being one of the Port Commissioners and would appreciate your vote to continue serving for the next 4 years.

Thank you.

I am privileged to have served nearly ten years on the Pacific
Communities Hospital District Board. During that time, the
District affiliated with Samaritan Health Systems and the
services offered by Samaritan Pacific Communities Hospital
and its affiliated clinics have greatly expanded. While the
District Board no longer runs the hospital it still oversees
the hospital property and monitors Samaritan's performance
within the guidelines of the affiliation agreement.

I have been a member of the PCH medical community
for twenty-seven years and have a personal as well as
a community interest in maintaining a caring, vibrant, and
patient oriented local hospital. Over the next several years, I
will support enhancement and expansion of current services
and the addition of other diagnostic and treatment modalities
so that fewer citizens have to travel elsewhere to obtain
treatment. I want citizens of and visitors to the District to feel
comfortable and confident in the care that they receive locally.

The major accomplishments of the Pacific Communities Health
District Board the last three years have included:

- the expansion of the ER and chemotherapy units
- the building of a permanent MRI
- the opening soon of a new dialysis unit
- low cost transportation options for all residents in our
county to medical appointments.

Each member of the present board brings unique strengths,
professional and educational backgrounds, and perspectives
to the Board.

My qualifications are:

- Registered Nurse
- Professional Geriatric Care Manager
- Private Business Owner caring for Elders and Hospice
Clients
- Member of the Governor's Commission on Senior

Prior Governmental Experience: Currently serving on North Lincoln Fire & Rescue Budget Committee

I am proud to run for the Board position to further strengthen the positive growth and loyalty of the volunteers with North Lincoln Fire & Rescue District #1. Working with the District, serving as a Budget Committee Member, has shown me the District's concern for public safety and the firefighters' well being.

In the past decade our district has grown and is continuing to improve; with better training, state of the art equipment and a new Delake Station.

However, there is always room for improvement, and my years of experience as a firefighter and successful business owner can assure our volunteers, who put their lives on the line to protect us, will be safe as our first responders no matter what challenges they face. I have three main objectives to accomplish this for our District:

- (1) Health and safety for the firefighters through training and proper equipment.
- (2) Preservation of life and property for the residents and visitors of the community through education and prevention programs.
- (3) Maintain fiscal responsibility for the taxpayers of the District through long term strategic planning and oversight.

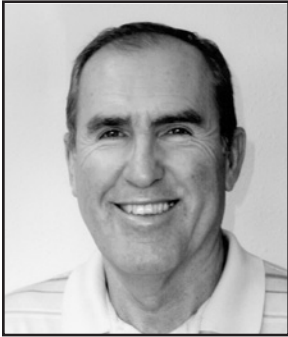

My passion for this town and the fire service will make sure this District remains strong. I understand and respect our firefighters and rescue workers concerns; my years of experience as a volunteer Fire Captain & Professional Firefighter/Paramedic (San Miguel Fire Protection District & Descansco Fire Departments) I can offer a fresh perspective without any bias.

Chairman, Board of Directors, Devil's Lake Water Improvement District

I have lived in Lincoln City for 30 years, the last 28 on Devils Lake. I was the president of PADL and I took a primary role in the drafting and passing of legislation to expand the authorized purposes of the Water Improvement Districts in Oregon "to provide water related recreation and for the purpose of enhancing water pollution control, water quality, and fish and wildlife resources". See ORS 552.108(1). As president of PADL, I also took a primary role in the formation of the DLWID. I was attorney for the DLWID for the first four or five years of its existence, encompassing the period of study of lake restoration alternatives, grant applications resulting in restoration feasibility studies, including the main study done by the University of Washington, and grass carp acquisition and introduction.

The success of the restoration of Devils Lake to this point has resulted in one of the most intensely used recreational lakes in our region, increased scenic value, residential development, and very substantial economic benefits to the Lincoln City area. However, these benefits exert increasing ecological stress on the lake, including causing the emergence of cyanobacteria and the re-emergence of invasive weeds. The current board is working to implement new technology that holds substantial promise for controlling these adverse effects on our lake. I would like to have the opportunity to continue and complete that work for the benefit of all of the residents of the District.
