

MyChart is a secure online tool that gives you direct access to portions of your electronic health record. Access your information from your computer, tablet or smart phone.

Who can use MyChart?

In partnership with OCHIN, who supports our clinic's electronic health record system, we are offering our patients secure, online access to their personal medical charts.

Using the OCHIN MyChart, patients can have online access to their medical information, any time of the day or night.

Connect with your health records.

Sign up for MyChart!

Your clinic staff can give you a secure MyChart activation code in person, along with instructions for creating your account.

Then visit <https://mychart.ochin.org> to connect with your health records.

OCHIN MyChart is safe, secure and private.

OCHIN MyChart is password protected and sent to you using an encrypted connection that won't allow others to see your information.

With MyChart, you can:

View your medical information

- ◆ Review medications, lab results, allergies, immunizations, etc.
- ◆ Access health education information
- ◆ Get your visit summary

Stay in touch with your provider

- ◆ Send your provider a secure email message
- ◆ Refill prescriptions

Manage your appointments

- ◆ Request an appointment
- ◆ See details of past or upcoming appointments

Access your family's records

- ◆ Request proxy access (access to another person's medical information) to view the account of someone for whom you are responsible, with appropriate consents. Contact your healthcare provider's office for more information.

Pay bills online

- ◆ View and pay clinic bills online – safely and securely.

Helpful Information

- ◆ Visit <https://mychart.ochin.org/>
- ◆ **Enter** the secure MyChart activation code that your healthcare provider or staff shared with you.
- ◆ **New!** Text Activation allows patients to sign up for their MyChart with three simple steps.
- ◆ For technical questions, call the clinic at **541-265-4947**.

When NOT to use MyChart

Please do not use MyChart for urgent medical matters - call your provider's office instead. For emergencies, always call 911 or visit your nearest hospital emergency department.
