LOCAL MEASURES

Measure 21-222 – Lincoln County Library District – Local Option Tax For Library Services

QUESTION:

Shall Library District renew levy of 9¢ per \$1,000 assessed value for five years, beginning 2025-26, to fund your library?

This measure renews current local option taxes.

SUMMARY:

This measure will renew the expiring local option tax. Approval of this measure continues providing funding at its present level for the Lincoln County Library District and the funding it provides to libraries in Lincoln City, Newport, Siletz, Toledo and Waldport.

It is estimated that this measure would raise approximately \$403,491 in tax revenues for 2025-26, \$415,596 in tax revenues for 2026-2027, \$428,064 in tax revenues for 2027-2028, \$440,906 in tax revenues for 2028-2029, and \$454,136 in tax revenues for 2029-2030. The estimated tax cost for this measure is an ESTIMATE ONLY based on the best information available from the county assessor at the time of the estimate.

Measure 21-223 – Depoe Bay Rural Fire Protection District – Depoe Bay Fire District 5-year Local Option Levy

QUESTION:

Shall the District levy taxes of \$1.39 per \$1,000 Assessed Value for 5 years beginning in 2025-2026 to fund personnel/operations?

This measure may cause property taxes to increase more than three percent.

SUMMARY:

The current local option levy of \$1.09 per \$1,000 expires June 30, 2025. The rate proposed in the new levy is \$1.39/ \$1,000 of assessed value. This thirty cents of assessed value increase amounts to \$8.75 per month for property assessed at \$350,000.

The proposed rate will fund current personnel, facilities and equipment maintenance, and replacement of apparatus.

Costs have increased faster than revenue since the last local option levy ballot measure approved in 2018. Passage of the proposed levy will allow the District to maintain minimum staffing of three firefighters 24/7.

Failure to pass the proposed measure will result in a reduction of services and increased response times.

It is estimated that the proposed rate will raise \$2,126,156 in 2025-2026, \$2,189,941 in 2026-2027, \$2,255,639 in 2027-2028, \$2,323,308 in 2028-2029, and \$2,393,008 in 2029-2030 based on the best information available from the County Assessor at the time of estimation.

Measure 21-224 – Oregon Coast Community College District – Bonds to construct trades education facility, improve classrooms, safety, technology.

QUESTION:

Shall Oregon Coast Community College build a new Trades Education Center; improve existing facilities; issue up to \$33,165,000 in bonds?

If the bonds are approved, they will be payable from taxes on property or property ownership that are not subject to the limits of sections 11 and 11b, Article XI of the Oregon Constitution.

SUMMARY:

The College expects to receive a grant of \$8,000,000 in state funds if the bonds are approved. Projects expected to be financed with bond and state funds include:

Construct new Trades Education Center expanding career options in skilled trades for County residents.

Expand and modernize existing career technical training facilities and acquire land supporting programs including Education, Allied Health, Aquatic Sciences, and Welding.

Update classrooms, technology, and facilities providing students with modern higher education, pre-apprenticeship, and job training spaces.

Support community emergency response infrastructure.

Improve existing facilities increasing lifespan and efficiency.

Site improvements, furnishings, equipment, bond interest, and bond issuance costs.

Bonds would mature in not to exceed 21 years from issuance and may be issued in series. The College's currently outstanding bonds will mature before the College levies for the bonds approved by this measure, and the College estimates these bonds will not increase the current tax rate of \$0.21 per \$1,000 of assessed value. Actual tax rate may differ due to final interest rates and changes in assessed values.

Measure 21-225 – Gleneden Beach Sanitary District – Five Year Local Option Tax for Gleneden Beach Sanitary District

QUESTION:

Shall the district levy a local option tax of \$.77 per \$1,000 each year for five years beginning 2024-2025 for capital projects?

This measure may cause property taxes to increase by more than three percent.

SUMMARY:

The tax revenue from this measure would allow Gleneden Sanitary District to renovate and improve its existing infrastructure. Without this revenue, the District will have to substantially increase user rates or ask the voters to approve a bond to raise the necessary capital to complete the capital projects. The proposed rate will raise approximately \$468,384 in 2024-2025; \$482,436 in 2025-2026; \$496,909 in 2026-2027, \$511,816 in 2027-2028; and \$527,170 in 2028-2029. The estimated cost calculated for this measure is based upon the best information from the County Assessor at the time of the estimate.

Measure 21-226 – City of Newport – Funding for street resurfacing and reconstruction projects

QUESTION:

Shall the City of Newport impose a year-round five cents per gallon tax on the sale of motor vehicle fuel?

SUMMARY:

The tax will address street resurfacing and reconstruction needs. A five-cents per gallon tax would generate approximately an additional \$311,000 per year that would be dedicated to street resurfacing and reconstruction projects.

The city has two primary sources of funding for street improvements, including the current local motor vehicle fuel tax of a variable one/three cents per gallon, from which the city recognizes about \$197,000 annually in taxes for the city's street resurfacing program. In addition, the city receives State Shared Revenues and transportation enhancement funds from the State of Oregon.

Based on an analysis conducted on the current level of reinvestment in the street system, the city's street overall index would fall to poor by 2030. In order to maintain a condition index of at least fair to good, the city needs to invest \$2 million per year in the street system. The increase in the motor vehicle fuel tax will be part of the investment needed to meet this target.

Measure 21-227 – City of Toledo – Bonds for water reservoir replacement

QUESTION:

Shall City of Toledo issue \$2,650,000 principal amount of general obligation bonds for Ammon water reservoir replacement? If the bonds are approved, they will be payable from taxes on property or property ownership that are not subject to the limits of sections 11 and 11b, Article XI of the Oregon Constitution.

SUMMARY:

The City of Toledo seeks voter approval to issue general obligation bonds to finance capital costs of the City including replacing the Ammon Road Tank water reservoir and related improvements and equipment.

Bonds would mature in 21 years or less from the date of issuance and may be issued in one or more series. If approved, the average annual bond tax rate is estimated to be \$0.35 per \$1,000.00 of assessed value. Actual rates may vary based upon interest rates incurred and changes in assessed value.
