

Wraparound is for people who:

- Are 0 to 21 years of age
- Are involved in two or more child-serving systems
- Have an active mental health diagnosis and are actively working with a therapist
- Are interested and willing to participate, along with their family members

And, who have two or more of the following:

- High mental health needs
- One or more placement disruptions to their living environment in less than a year
- Behavior that has disrupted success in school settings
- Stressors in their family support system and/or their environment that affect their daily life

Behavioral Health Wraparound Program

Wraparound care teams work together to create a single plan of care for young people who are involved in two or more child-serving systems.

The Wraparound plan of care helps meet the needs of and improve the lives of these young people and their families.

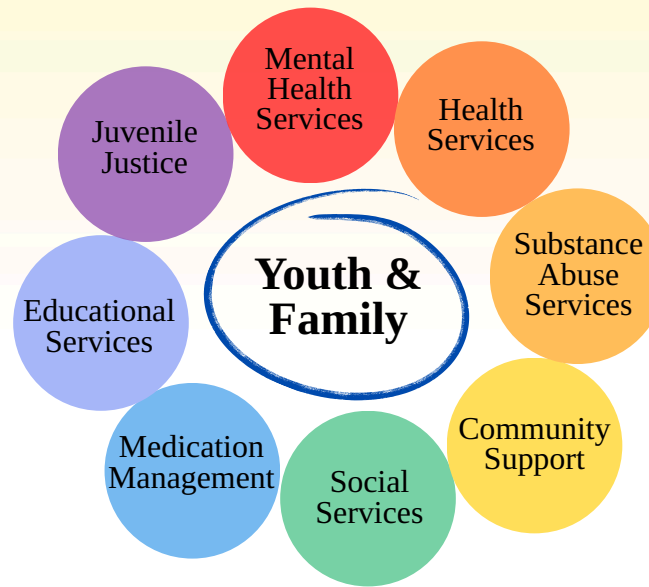

What to Expect:

- Your involvement in the Wraparound process is critical— we cannot do this without you!
- You can expect a team meeting at least once a month
- Begin with the end in mind— our goal is to give you the skills to be your family's own Care Coordinator
- You will work with your identified team to create and work toward goals specific to your family

Our services are available to everyone in Lincoln County

We accept Oregon Health Plan, Medicare, and most private insurances. We provide services regardless of the ability to pay.

Our billing department will review and discuss payment options for anyone.

The Team

- The young person and their family will create a team of natural and community supports
- This team will work together to create action steps to help meet the family's goals
- The team can change at any time, as needed

Wraparound is:

- A way to support multi-system involved youth and their families as they work toward their goals
- A way to coordinate services and supports within the community
- A family-driven and youth-guided approach

Wraparound Steps:

1. **Engagement:**
Create team, develop goals and stabilize crises
2. **Plan development:**
Develop plan of care and assign action steps
3. **Plan implementation:**
Continually revisit, update and implement plan
4. **Transition:**
Plan for smooth transition out of Wraparound
