4. Consultant shall consider requests for substitutions, if the Bidding Documents permit substitutions, shall keep a record of all substitutions proposed, including Consultant's evaluative reports and conclusions, and shall prepare addenda for distribution identifying approved substitutions to all prospective bidders.
5. For the purposes of this section, "Bidding Documents" includes other types of solicitation documents, such as a request for proposals, if Owner approves an alternative procurement process for the Project under Owner's public contracting rules.

G. CONSTRUCTION PHASE

1. Consultant shall provide administration of the contract for construction between Owner and its contractor ("Contractor") as set forth below and in conformance within that contract.
2. Consultant shall participate in and provide to Owner, within 48 hours of occurrence, an electronic record of the Meeting report/minutes from the Project kick-off meeting;
3. Consultant shall advise and consult with Owner during the Construction Phase. Consultant shall have no authority to act on behalf of Owner except to the extent, if any, provided in this Agreement. Consultant will not have control over, charge of, or responsibility for the construction means, methods, techniques, sequences, or procedures, or for safety precautions and programs in connection with the construction work, nor will Consultant be responsible for the failure of others to perform the construction work in accordance with the requirements of the construction contract documents. Consultant shall be responsible for Consultant's negligent acts or omissions, but shall not have control over or charge of, and will not be responsible for, acts or omissions of Contractor or of any other persons or entities performing portions of the construction work.

4. Consultant's responsibility to provide Construction Phase Services commences with the award of the contract for construction and ends on the date Consultant issues the final certificate for payment.
5. Evaluation of the Work. Consultant shall visit the site at intervals appropriate to the stage of construction, and at a minimum, once per week, to become generally familiar with the progress and quality of the portion of the construction work completed, and to determine, in general, if the work observed is being performed in a manner indicating that the work, when fully completed, will be in accordance with the Construction Documents. Visits may be necessary more than once a week or outside of regular intervals if the particular stage of construction requires prompt evaluation, including without limitation inspection of work in areas that will be subsequently covered and become inaccessible. Consultant will respond promptly to Owner's request for on-site evaluation in such circumstances. On the basis of the site visits, Consultant shall keep Owner reasonably informed about the progress and quality of the construction work as it is completed, and report in writing to Owner (a) known deviations from the Construction Documents and from the most recent construction schedule submitted by Contractor, and (b) defects and deficiencies observed in the work.
6. Change Orders.
 - a. Consultant shall review all of Contractor's change order requests to determine if those requests are valid and appropriate. Consultant shall recommend to Owner whether the change should be approved, partially approved, returned to Contractor for clarification, or rejected.
 - b. Consultant shall furnish all necessary additional drawings for supplementing, clarifying, and/or correcting purposes and for change orders. Owner shall request these drawings from Consultant, who shall provide the drawings at no additional cost unless Owner designates the request as Additional Services. Consultant shall submit original tracing(s) and/or drawings and contract wording for change orders to Owner for duplication and distribution.
 - c. CM/GC- GMP Contingency- County will carry a contingency within the GMP contract held by the CM/GC. This contingency will be used for any changes that arise on the project and the team including the architect will review each change and recommend its use as a contingency item. The architect will review or have its subconsultants review each change and provide a recommendation on whether or not it is a legitimate contingency use item.
7. Submittals.

- a. Consultant shall review Contractor's schedule of submittals and advise Owner if the schedule is complete and if proposed review durations are adequate. Consultant shall provide Owner with proposed revisions to this schedule and advise Owner on whether Owner should approve the schedule.
 - b. Consultant shall review and approve or take other appropriate action upon Contractor's submittals, such as shop drawings, Project data, samples, and change orders, but only for the limited purpose of checking for conformance with information given and the design concept expressed in the contract documents.
 - c. Consultant's action upon Contractor's submittals shall be taken as expeditiously as possible so as to cause no unreasonable delay in the construction of the Project or in the work of separate Contractors, while allowing sufficient time in Consultant's professional judgment to permit adequate review. In no case shall the review period associated with a single, particular submittal exceed ten calendar days from its receipt by Consultant. Consultant's response to each submittal shall be a substantive and acceptable response.
8. Requests for Information ("RFIs"). During the course of construction as part of the basic Services, all RFIs must be responded to as expeditiously as possible so as not to impact and delay the construction progress. Should Consultant determine that a response is not possible within three business days, Consultant shall promptly notify Owner that additional review time will be needed. In no case shall the review period associated with an RFI exceed seven calendar days from the receipt by Consultant. Consultant's response to each RFI shall be a substantive and acceptable response. This seven-day time period shall not include time when a submittal is within Owner's control or if the submittal is being reviewed by a permitting jurisdiction. In no way does this provision reduce Consultant's liability if it fails to prepare acceptable documents in a professionally reasonable time.
9. Payment Statements. Within three days of receipt, Consultant shall review and certify the amounts due Contractor and shall issue certificates in such amounts. Consultant's certification for payment will constitute a representation to Owner, based on Consultant's evaluation of the work and on the data comprising the Contractor's application for payment, that, to the best of Consultant's knowledge, information, and belief, the work has progressed to the point indicated and the quality of the work is in accordance with the construction contract documents. The foregoing representations are subject to (a) an evaluation of the work for conformance with the construction contract documents upon Substantial Completion, (b) results of subsequent tests and

inspections, (c) correction of minor deviations from the construction contract documents prior to completion, and (d) specific qualifications expressed by Consultant.

10. Notices of Deficient Work. Based on on-site observations, Consultant shall keep Owner informed of the progress and the quality of the work and shall endeavor to guard Owner against defects and deficiencies in the work. Consultant shall notify Owner in writing of any defects or deficiencies in the work by Contractor that Consultant may observe. However, Consultant will not be a guarantor of Contractor's performance.

H. RECORD DRAWINGS AND CLOSE-OUT PHASE

1. As-Built Drawings. Consultant shall review and evaluate for Owner Contractor's as-built documentation of the actual construction performed during the Project that Contractor prepares and submits. As-builts are documents that show the actual construction performed during the Project, including changes necessitated by change orders, RFIs, and Supplemental Drawings/Documents, and detailed by Contractor.
2. Record Drawings. Consultant shall incorporate all construction information from as-built drawings, sketches, details, and clarifications, and prepare one set of final Record Drawings for Owner. Consultant may insert the following notice on the Record Drawings:

3. Manuals/Warranties. Consultant shall review equipment, operation, and maintenance manuals, and a complete set of warranty documents for all equipment and installed systems, to ensure that they meet the requirements of the plans and specifications and shall submit a written summary of such review to Owner.
4. Project Completion. Consultant shall conduct inspections to establish or confirm the date of Substantial Completion and the date of Final Completion of Contractor's work. At Substantial Completion, Consultant shall review Contractor's punch list, conduct a visual inspection of the completed work, and prepare an updated punch list of conditions observed and recommending correction, completion, or replacement by Contractor. Consultant shall review the Project again upon Final Completion to confirm compliance with the construction contract documents and shall issue a final certificate for payment representing to Owner to the best of Consultant's knowledge and belief that the work is completed and in compliance with the requirements of the construction contract documents.

5. Upon request of Owner and prior to the expiration of one year from the date of Substantial Completion, Consultant shall, without additional compensation, conduct a meeting with Owner to review the facility operations and performance for the purpose of assisting Owner in the evaluation of work relative to Contractor's Warranty.
6. LEED Certification. If LEED Certification is identified for the Project and performance verification is a part of the LEED Certification process, Consultant shall coordinate the review meeting and assemble all parties as required to evaluate building performance and shall coordinate the preparation and submittal of all applicable documents and reports.

I. COMMISSIONING ASSISTANCE

If commissioning is required as a part of the Project Services, Consultant shall coordinate with Owner and Contractor to ensure that commissioning services are scheduled and completed at appropriate times during the construction process and after Substantial Completion.

J. ADDITIONAL SERVICES

Consultant shall perform the following Additional Services when authorized or directed by Owner in writing:

1. Making revisions in drawings, specifications, or other documents when such revisions are:
 - a. Inconsistent with approvals or instructions previously given by Owner;

 - c. Due to changes required as a result of Owner's failure to respond to a written request from Consultant within a reasonable time.
2. Providing Services made necessary by significant documented Owner-initiated changes in the Project, including but not limited to size, quality, complexity, Owner's schedule, or method of bidding and contracting for construction.
3. Providing consultation concerning replacement of work damaged by fire or other cause during construction and furnishing Services required in connection with replacement of that work.

4. Providing Services made necessary by the default of Contractor(s), by major defects, or deficiencies in the work of Contractor(s).

6. Providing Services as an expert and/or witness for Owner in any mediation, arbitration, and/or trial in which Consultant is (a) not a party and (b) did not in any way cause the dispute that is being adjudicated.
7. Providing training, adjusting, or balancing of systems and/or equipment outside of any Services required by commissioning that may be a part of this Agreement.
8. For Consultant's Additional Services the fee to be paid shall be determined in one of the following manners and identified as a part of the extra service authorization.
 - a. Owner may elect to negotiate a fixed fee for Additional Services.
 - b. Owner may compensate Consultant on a time-and-material basis for the Additional Services based on the following criteria: (i) additional labor fee shall be calculated based on the approved hourly billing rates as listed below and an agreed-upon level of efforts for the principals and employees of Consultant, and (ii) actual expenditures made by Consultant on the Project and supported by receipts.
 - c. Owner may negotiate a fixed fee for a portion of the Additional Services and agree on a time-and-material compensation for the remainder portion of the Additional Services.
 - d. Owner may compensate Consultant on a percentage basis of the final negotiated pricing on change order work accomplished by Contractor.
9. No adjustment in Consultant fee shall be made based on a net change to the construction contract award amount as the total Consultant fee payable hereunder is a negotiated amount.

designed in a way to allow the ability to open parts of the site at a time to maximize the ability of the community to use it.

- 8) New stage
 - a. In decent condition and has the potential to be saved for future use
 - b. Possible sunken amphitheater added to the site also
