The following is an information update from the Lincoln County Emergency Operations Center (EOC) provided by the Lincoln County Public Information Officer (PIO). This is the last Public Information Update for the Echo Mountain Fire Complex and straight-line wind event. Keep up to date on all Oregon wildfire resources at https://wildfire.oregon.gov/

Update Narrative

Oregon Department of Forestry – We have reached 100% containment on the Echo Mtn. Complex. From this point forward the West Oregon District will patrol the fire lines. Those that are close to it may see smoke from the interior, this is normal. If you have any questions please contact the Toledo office at 541-336-2273

National Weather Service - A cold front moves inland today increasing winds and bringing significant rainfall to all areas. Strongest south-southwest winds likely between 9 am and 6 pm Wednesday, with gusts 35 to 45 mph - strongest across beaches, coastal headlands, and higher terrain. Showers and perhaps an isolated thunderstorm on Thursday. Total rainfall Wednesday/Wednesday night: 1 to 2 inches for the coastal areas, but 2 to 4 inches for the Willapa Hills and Coast Range. High threat of sneaker waves on Pacific Ocean beaches.

Fire and wind damaged areas may see additional damage during this storm. If you have damaged or burned trees on your property, contact your insurance agency and a professional tree-faller or arborist. If you see a smoking stump, it is not an emergency. You can use a hose to extinguish smoldering vegetation or stumps. Do not call 911 for smoldering vegetation. It can take several weeks for the rain to fully extinguish the smoldering vegetation. However, if you see flames due to wind or an actual fire, call 911.

North Lincoln Fire and Rescue
Business Number - 541-996-2233
Non-Emergency Dispatch Number – 541-994-3636

National Weather Services – Current Conditions:
https://forecast.weather.gov/MapClick.php?lat=44.6419&lon=-123.8676#.X2u1pmhKiUm

The initial damage assessment has been completed. Road and utility safety concerns have been mitigated, though utility services will be working in the area for several more days. Be
aware that utility outages may occur for several more days as water, gas and power repairs continue.

**Help after the disaster**

The Lincoln County Emergency Operations Center is hosting a Multi-Agency Resource Center (MARC) that will be available for those whose homes are affected by the Echo Mountain Complex Fire. The MARC will be open this week at the Lincoln City Outlets in Suites 200 and 410.

- Tuesday September 22: 3pm – 8pm,
- Wednesday September 23, 2020: 1pm – 8pm, and
- Thursday September 24: 8am – 1pm

The Resource Center will include representatives from a variety of agencies to support those affected by the fires and straight-line wind event.

The Trauma Support Center is also at the outlet mall and is open from 10:00am – 5pm. The Donation Distribution Center is located in Suite 118 and is open from 10:00am to 6pm.

The MARC is not a donation drop-off or pick-up location and is only open to those people whose homes and properties are in the fire area.

There is support available for those who have been affected by the Echo Mountain Complex Fire:

- Lincoln County Crisis Hotline: 1-866-266-0288
- Disaster Stress Helpline: 1-800-985-5990 or text TalkWithUs to 66746. This line is available in 100 languages, 24 hours a day 7 days a week
- In-person crisis support with Lincoln County Behavioral Health: Suite 410 at the Outlet mall (across from the donation distribution center).

**Individual Assistance – FEMA**
Website: DisasterAssistance.gov/ela
Phone: 1-800-621-3362 (FEMA) or TTY 1-800-462-7585 7 a.m. to 10 p.m. PDT, seven days a week.

**Low-interest disaster loans – SBA**
Website: www.sba.gov/services/disasterassistance
Phone: 1-800-659-2955 or TTY 800-887-8339

**Housing and Community Services:** [https://www.oregon.gov/ohcs/Pages/index.aspx](https://www.oregon.gov/ohcs/Pages/index.aspx)
**Renters Rights** [https://www.oregonrentersrights.org/](https://www.oregonrentersrights.org/)
Debris Management
For people moving back into households within the fire zone but have no fire damage: Service will be restarted as normal

For households directly impacted by the fire:
- There are both safety and logistical concerns homeowners need to consider prior clean up, especially related to the potential risks of asbestos.
- Due to the risks of asbestos, self-hauling fire related debris is not recommended at this time. DEQ has information at https://www.oregon.gov/deq/wildfires/Pages/After-the-Fire.aspx
- Property owners are reminded that insurance and FEMA claims require proper handling of debris materials as well as proper documentation to receive reimbursement. Importantly, failing to follow required processes from the very start of the cleanup process may result in rejected claims and pose significant safety issues.
- Owners from fire-impacted areas may contact the Lincoln County Call Center 541-265-0621 for the up-to-date information on the debris management plan for their area.

Contact DEQ for help if you:
- Have concerns about asbestos on your property, or if you find evidence of asbestos fibers and want to know more about how to ensure safe disposal.
- Need advice on how to properly dispose of household hazardous wastes such as bleaches, cleaners, paints or oils.
- Need assistance with the inspection or replacement of septic systems.

Find more information:
- Asbestos: http://ordeq.org/asbestos
- Household hazardous waste: http://ordeq.org/hhw
- Septic systems: http://ordeq.org/septic

DEQ Asbestos and Solid Waste Contact
- Asbestos: 503-378-5086 or 800-349-7677
- Solid Waste: 541-686-7868

Utilities – NW Natural and Pacific Power are reporting sporadic outages but services have been restored to many areas.
Current Evacuations:

All evacuation levels have been removed.

CAUTIONARY RE-ENTRY INFORMATION:

- It is always advisable to do a safety check of your home and property when you return.
- You may experience some intermittent power disruption over the next few days.
- Continue to monitor local media sources, county website and your telephone devices to receive further information and updates.
- If you need assistance with transportation to return to your home call the Call Center - 541-265-0621

ANY COMMUNITY MEMBER who experienced fire or wind damage to their home, business, outbuildings, or vehicles are encouraged to complete the online damage assessment process to report their damages.

The more information, local government can capture, about our damaging event the week of the 7th, the more advocacy local government can apply for financial assistance from FEMA and Small Business Administration (SBA) for our recovery.

We encourage any property owner or renter who experienced damage to ALSO fill out the online FEMA financial assistance application – even if you have insurance. You may qualify for some assistance.

Another option for business owners and property owners is to apply through the SBA for low interest loans for their recovery efforts.

We understand that the information being presented to you is overwhelming and can be confusing; we have provided the most useful documents related to applying to FEMA/SBA in this email and on our website.

Shelters and Warming Centers:
The American Red Cross (ARC) has transitioned sheltering to hotel placement. There is an ARC Assistance Center in Lincoln City for those affected by the wind and fire event.

Red Cross Evacuation Assistance Center
Lincoln City Community Center
2150 NE Oar Place
Lincoln City OR 97367
541-921-3049

Pets

- Animal Shelter can help with all animal questions. **541-265-6610 extension 6**
- Animal Shelter staff are in the evacuated areas dropping food and water and picking up injured animals.
- **Barnyard Animals** - Livestock County Commons - 633 NE 3rd St, Newport, OR 97365
  - The Lincoln Commons is available 24/7 with pens, buckets, water and hay for livestock.
  - Users of the facility must be prepared to care for their animals.
  - Users must register and check in with a volunteer during the day and during their stay at the Commons.
- **Companion Animal Supplies** - Dogs, Cats and Pets
  - If you have evacuated with companion pets and need supplies. There are companion animal supplies available at Animal Shelters entrance at 510 NE Harney street.
- For connections to livestock resources, you may post at the Facebook Group PNW Animal Natural Disaster/Fire Evacuation Resource Group or call the Animal Shelter and we will post for you. [https://www.co.lincoln.or.us/sheriff/page/planning-your-pets](https://www.co.lincoln.or.us/sheriff/page/planning-your-pets)
Donations and Volunteers

If you do have donations or want to volunteer, please visit
https://oregonrecovers.communityos.org/

Existing donations can be taken to the Donation Reception Center.
Lincoln County Fairgrounds, 633 NE 3rd St, Newport, OR 97365
Open Monday-Friday 12pm-7pm and Saturday-Sunday 9am-6pm.
Donations from this site will be relocated to the Donation Distribution Center in Lincoln City
for those affected by local wildfires.

Health and Medical Resources:
If you have a non-emergency medical supply need (meds, oxygen, supplies) contact your
primary care provider/supplier first. If they cannot assist you contact the Lincoln County Public
Information Call Center at 541-265-0616. If this is a medical emergency call 911.

Air Quality:
There is not a local air monitoring station in Lincoln County. If visibility is under a mile, then
air quality is very unhealthy or hazardous. If smoke prevents you from seeing more than
three miles in any direction, air quality is poor. This means you may want to stay indoors or take other precautions.

- Weather and smoke levels can vary dramatically during wildfires. This can vary not only daily, but also hourly. Smoke may also affect one part of a community but not another. This can make it difficult to provide you specific health warnings, especially when conditions change quickly.
- Some people may experience health effects even when the air is unhealthy for a short time. It is important to take precautions based on your individual health and the smoke levels around you. This may mean staying indoors when air quality is poor. It may also mean not exercising during these conditions.
- If air quality remains poor—generally, for more than one day—then the Department of Environmental Quality (DEQ) and the health agency can issue a health advisory. Refer to the Oregon Smoke Blog http://oregonsmoke.blogspot.com or local media for updates.
- Smoke levels change over the course of a day, sometimes dramatically so. Air quality may be unhealthy for an hour or two at night but may be good the next morning. You should also rely on visibility (how far you can see during wildfires) to decide what precautions you may want to take.
- Limit your exposure to wildfire smoke.
- Reduce time spent outdoors.
- Reduce time you negate in vigorous outdoor activity
- Stay hydrated. Drink plenty of water.
- Reduce other sources of indoor smoke and dust.
- Check current air quality conditions – http://oregonsmoke.blogspot.com/
- If you have heart or lung or respiratory illnesses such as asthma, follow your health care provider’s advice about prevention and treatment of symptoms.

Food and Water Resources:

- If you are experiencing a long-term power outage be mindful of food safety issues, refrigerator and freezer temperatures.
- If you are returning home after a long-term power outage (more than 2 days) you need a way to verify if the items in your refrigerator/freezer maintained appropriate temperatures before cooking/eating them. Frozen foods at or below 0°F and refrigerators at or below 40°F to be considered safe.
